

## Winix Zero+ Pro 5 Stage Purifier

### Benefits

The Winix ZERO+ PRO 5-Stage is our most powerful air purifier, designed to thoroughly filter the air in homes or workplaces. With a unique, comprehensive 5 stage filtration system it can effectively clean air in bedrooms up to large, open plan rooms and workplace offices. World-leading air filtration for airborne pollutants and allergens including Dust, Pollen, Pet Dander, Smoke, Mould Spores, VOCs, Household Odours, Bacteria and Viruses.

Not only ideal for asthma and hay fever sufferers, it's also perfect for your pets! With our patented Winix PlasmaWave® 2.0 Technology it can neutralise a variety of human and pet viruses. It's also the only air purifier on the Australian market with a dedicated "Pet Filter".

Manufactured just for Australia, the energy efficient Zero+ PRO 5-Stage Air Purifier is a powerful, top quality performer with world class technology and design. Perfect for the family home or professional use, the ultimate PRO level air purifier.

Breathe easier, sleep better, feel better. Winix; the most complete air-purifiers on the market!

## Features

5-stages of air filtration

Optimum room size: 49.5 m<sup>2</sup>

Australian Hospital-grade True HEPA filter

- captures 99.97% of airborne pollutants as small as 0.3 microns

PlasmaWave® technology 2.0: Creates Hydroxyls to instantly neutralise bacteria, odours, VOCs (chemical vapours and harmful gases) and viruses including Influenza A (H1N1), Cat Calicivirus, Dog Coronavirus, H5N1 Influenza A Subtype, Avian Influenza (H7N9), Zika virus  
- without producing harmful ozone\*

Deodorization Activated Carbon Corrugate Filter: captures VOCs (chemical vapours) as well as offensive odours (up to 99% efficiency)

Pet filter: captures large particles, dander & pet hair

4 fan speeds with 'set & forget' auto mode

Triple Smart Sensor: monitors and reactively adjusts to airborne particles (such as dust, dust-mites, mould spores, pollen & pet dander), light (adjusts to day/night) & odours (smoke, pets, cooking & other unpleasant household smells)

Smart Air Quality LED Display measures and displays the current indoor air quality: blue (good) | green (average) | amber (fair) | red (poor)

Sleep mode: dims the lights and operates in quiet mode

Exceptional energy efficiency: up to 12 times more efficient than a typical 60w household light bulb

Replacement air filters – reliable availability at 'value for money' prices

full 2 year domestic warranty / 6 month non-domestic warranty

\*In tests by global independent safety science company UL LLC, Winix Air Purifiers produced 3 part per billion ozone - a nearly undetectable level that is substantially lower than the FDA's allowable level of 50 part per billion.
